

3ZERO CLUB™

CREATING A WORLD OF 3ZEROS

WHAT IS A 3ZERO CLUB

The 3ZERO Club is an initiative towards achieving the Nobel Peace Laureate Professor Muhammad Yunus's vision of creating a world of three zeros – zero net carbon emission, zero wealth concentration for ending poverty, and zero unemployment by unleashing entrepreneurship in all.

This initiative of setting up a global network of 3ZERO Clubs is undertaken to make young people familiar with the goal of three zero world and ways to achieve this goal with the creative initiatives of young people. Each Club is a self-formed, self-contained mini-Club of five members with self-chosen tasks to play a role in creating a three zero world. Each Club empowers itself by connecting with other such Clubs, having a larger range of common features. The Clubs become exponentially powerful as they link themselves up with each other. This networking expedites, in a systematic way, the process of reaching the goal faster.

GETTING READY TO GET CONNECTED

Each Club is a doer on its own and at the same time a support unit for many other Clubs in the system. Each Club will define its role and programme as they grow. As the Club activities widen, they transform the members who gradually unfold themselves as a force to change the world. The Club gives the opportunity to young people to take up the responsibility to create a world of their choosing rather than spending their lives complaining about the world they live in. Each Club can form its own "Circle" focusing on any particular subject or orientation, or join any existing Circles to widen the world of friends having a common interest.

VISION

The vision of the 3ZERO Club is to create a world of three zeros – zero net carbon emission, zero wealth concentration for ending poverty, and zero unemployment by unleashing entrepreneurship in all.

MISSION

The mission of the 3ZERO Club is to inspire and enable the youth to ideate, create and lead with the entrepreneurial spirit to solve the most pressing social and environmental issues of our time.

CLUB

Each 3ZERO Club is formed with a fixed number of five young persons between the age of 12 and 35 years. The age difference between the oldest and youngest members within a Club cannot be more than seven years. Each Club is headed by a person with the title of Key Person and assisted by a deputy known as Deputy Key Person. Members at the time of the registration are known as Founding Members, the Key Person as the Founding Key Person, the deputy as the Founding Deputy Key person.

Anyone from any part of the world, from any poor, rich, rural, suburban and city areas, can be a Club member or create a Club.

AREA OF FOCUS OF A 3ZERO CLUB

There are so many things a 3ZERO Club can do to turn the world around. A Club may start with a very broad area of interest, such as achieving a world of three zeros. To make it manageable, the Club has to find a narrow area within the broad subject. This needs intensive discussion among the Club members. They can see what other 3ZERO Clubs are doing and the common interest among the members of their Club. The focus decided by the Club becomes a part of the name of the Club. For example, if the Club chooses 'environment' as the core issue, it will be known as "3ZERO Club for Environment".

CIRCLES, CIRCLE CENTRES AND NETWORKS

A Club may reach out to another Club or a group of Clubs having the same focus area or some common denominator. It may look for Clubs in the same city or even neighborhood or look for Clubs of a specific type of membership, such as same gender or age group.

Five or more Clubs with some common characteristics may form a cluster to be known as a Circle. A Circle is recognised only when it is registered with the 3Z Global Centre. The participating Clubs decide the common features of a particular Circle. A Club can get in touch with the 3Z Global Centre to get their help in finding Clubs with common characteristics to form a 'Circle' or to join an existing Circle with desired features.

Clubs may form a Circle based on common country, language, province, district, city, a particular neighbourhood of a city, or any other administrative or geographical identity, such as the multi-national entities like EU, ASEAN, SAARC etc. or any other common denominator.

Circles decide their own common programmes. The initiating Club or one of the participating Clubs is designated as the Circle Centre to undertake the coordinating role of the Circle Centre. The key person of the Centre is known as the “Navigator” for the Circle. The co-key person is known as the “Co-Navigator”.

In addition to Circles, Clubs can form a “Network”. Unlike the Circle, the Network doesn’t need any common denominator. For any convenience, Clubs can form Networks. Networks have Network Centres with Network Navigators and Deputy Navigator, just like the Circles. The common goal for all Clubs would be to connect with each other for more power to create more impact.
